LECTURE FOR BUSINESS MEN

LEE FRANCIS LYBARGER TO
SPEAK ON "LAND, LABOR
AND WEALTH."

The Kemp lecture yesterday afternoon was highly appreciated by the large audience attending.

In the evening Ralph Parlette added to the reputation of the chautauqua for presenting only the best talent obtainable. His subject, "The University of Hard Knocks," was not only a good one but he handled it in a way that completely captured and held the attention of the audience. With enough humor to keep up a lively interest, he presented the philosophy of life in a manner which showed thoroughly he had learned his lesson in the great university. The central thought was that we learn the real lessons of life, not from dry books, but from contact with the living and that our success depends upon our ability to profit by what we learn.

This afternoon Dr. H. W. Sears is delivering one of his popular lectures.

As announced yesterday, the evening lecture is of especial interest to business men, Lee Francis Lybarger, who will speak on the subject: "Land Labor and Wealth," is said by W. J. Bryan to be the most profound thinker of the day on economic subjects. The nation is rapidly approaching a crisis and few men have the time to devote to thought on the complicated situation to really know what we are facing. Mr. Lybarger has given many years to a thorough investigation of these things and when presented to the public in his own inimitable style, cannot but carry weight with it. Every business man in Ada is urged to be present this evening.

Tomorrow afternoon W. Powell Hale, impersonator, will give a recital. In the evening the program will be devoted to an entertainment of song by Mrs. Riheldaffer, one of the foremost vocalists on the platform of today. This will be a treat to all lovers of music, whether they are musicians themselves or not. This is one of the strongest numbers of the course and will be an event long to be remembered.

POTT. COUNTY LEADS IN COTTON PRODUCTION

Washington, D. C., June 15.—Pottawatomie county, Oklahoma, still remains the banner cotton producing

county of Oklahoma, according to statistics for 1910, just issued by the census bureau. Last year in Pottawatomie county 47,988 bales of the white staple were ginned in that county; Lincoln county being a close second with 44,970 bales; Jackson county third with 37,350. In eastern Oklahoma, Sequoyah county came first with 25,878 bales, and Hughes county second with 25,350. Twenty-three thousand four hundred and fifty bales were ginned in Muskogee county in 1910.

Nearly a million bales, or to be exact 919,842 bales of cotton, counting round bales as half bales, were ginned in Oklahoma in 1910, as compared with 552,678 in 1909.

Rain in North Texas.

North Texas' heat wave was at least temporarily broken late Wednesday and during the first part of the night by heavy showers in several counties, and thunderstorms also aided in making conditions more pleasant.

Amounts of the rain vary. Denton reported a quarter of an inch fall and that the watershed in which Dallas is interested because of its reservoirs had not been affected to any important degree. About the same amount of water fell at Mingo.

The Southwestern Telegraph and Telephone Company reported rains at Denison, Whitewright, Greenville, Hillsboro, Wills Point and Cedar Hill.

Six County Assessors Appointed.

Oklahoma City, Ok., June 14.—Governor Cruce tonight appointed six more county assessors. There are twenty more assessors to be appointed and in each of these counties a hard fight is being put up by the candidates.

The assessors appointed today were Cleveland County, W. D. Morter, Norman; Okmulgee County, J. Will Baker, Okmulgee; Pittsburg County, Walter A. Evans, Kiowa; Wagoner County, G. D. Carl, Wagoner; Kingfisher county, W. R. Blackburn, Hennessey.

The Hottest Day.

Wednesday was the hottest day of the year, according to the government thermometer in charge of Prof. Ralph Brooks. The instrument registered 105 degrees in the shade. The rain gauge indicated a fall of .22 of an inch after the shower in the afternoon.

W. L. Mullins was in from near Conway today and reports that that community is needing rain about as badly as any other in the county.

NEWSPAPER MEN FAVOR RECIPROCITY

Louisville, Ky., June 14.—Members of the Southern Newspaper Publishers Association, in session here, today adopted resolutions urging Senators from the Southern States to vote for the Canadian reciprocity measure now before the Senate. The resolution follows:

"We urge upon the senators from the Southern States to vote for the Canadian reciprocity bill now before the senate. We request this, first, because we believe the reciprocity measure will prove beneficial to all the people of the United States. We also urge the Southern Senators to support the measure on account of the provisions in the bill regarding print paper and wood pulp, not because we are asking special legislation for our own benefit, but because we believe these measures to be fair to the manufacturers of print paper in this country as well as to the newspapers for the reasons so clearly elucidated by the president in his Chicago speech.

Says Extortion Conceded.

"The exactions to which the newspaper publishing industry of the country has been subjected are so manifest that one of the foremost republican opponents of the reciprocity measure, who submitted a minority report to the senate yesterday opposing the bill, conceded that the publishers have been subjected to extortions and have been forced to conduct their business under conditions which are intolerable. This senator, as a member of the Finance Committee, had heard all of the evidence submitted to that committee and his conclusion is added evidence of the justice of this portion of the reciprocity bill."

The association devoted part of the second and last day of the convention to consideration of newspaper making problems that confront "the men behind the boys in the trenches," as Henry Watterson expressed it. The social program consists of a luncheon as guests of the Evening Post and a banquet at the Louisville Country Club as the guests of the Evening Times and the Courier-Journal.

Managing Director Dawe of the Southern Commercial Congress addressed the Publishers' Association today on the relation of the newspapers of the South to development. He declared that the South, by reason of its resources, can come to commercial leadership in the Nation, but that to accomplish this there must come into existence a union of all the constructive forces of the region in order to carry on world-wide publicity. The Publishers' Association endorsed the plans of the congress, recommended co-operation by all Southern newspapers for the purpose of making the broad facts of the South known and appointed a committee to act with the organization represented by Mr. Dawe.

THE TENT MEETING

Notwithstanding the threatening rain we had a nice crowd last night to listen to "Capital and Labor from the Bible."

The subject tonight will be The Sanctuary.

M. O. & G. Will Build 300 Miles.

Muskogee, Ok., June 15.—The M. O. & G. railroad (The Gulf) will begin in October, the building of an extension of 200 to 250 miles to its present system. Three routes are under consideration and a choice will be made between them within thirty days, the choice depending upon the inducements offered by the people along the proposed routes, and the comparative possibilities of traffic as shown by an investigation now being made.

President William Kenefick of the road, Chief Engineer Joseph Harrison of the M. O. & G. and Monsieur G. Paget of Paris, France, a noted French engineer, who represents the interests of French capitalists who are financing the new extension, are now going over the ground to determine the route.

They will first go over the proposed route from Denison to Dallas and Fort Worth; and then inspect another route, from here to Oklahoma City, beginning at Henrietta and running, probably through Shawnee,

to Oklahoma City. A third route is a line to Kansas City, through either Joplin, Mo., or Pittsburg, Kansas. A line has been surveyed to both of those points, and will run through one or the other, to Kansas City.

A short line is also proposed beginning at the end of the present coal spur at Coalton, which leaves the main line at Dewar, to run to Okmulgee. President Kenefick and the engineers will definitely decide on one of the three proposed routes within the next thirty days, and begin arrangements for construction in October, and they expect to have the extension ready for operation in a year from the time construction work is begun.

Cement Men at Kansas City.

Kansas City, Mo., June 15.—Kansas City will be one of the three cities in the United States which will have a cement products show next spring. This was decided yesterday at the semi-annual convention of the Association of American Portland Cement Manufacturers. The cement show has been limited so far inasmuch as it has not been run on the basis of profit-getting, but rather to interest and instruct the public in the numerous uses of cement. In consideration of the amount of business in sight it was decided to add Kansas City to the present list of show towns, New York and Chicago.

"All we have to depend upon in insuring Kansas City an annual show is the attention it is accorded upon the first trial. We believe, however, it will be success here," J. P. Beck, manager of the Cement Products Exhibition Company, said yesterday.

Yesterday's meeting of the convention was for the transaction of routine business. Reports from the varied committees were read. While these show that the cement business like nearly every other branch of commerce, has suffered a slight depression, there has been an increase in the variety of uses to which the popular composition is now put. The convention will continue today.

Furniture Wholesale and Retail SMITH Factory Agent 203-5 W. Main St.

Booze Runs in Gutters of Shawnee.

Shawnee, Ok., June 14.—A large quantity of intoxicating liquors was destroyed by members of the police department this morning, following an order of Chief Hill to that effect. Several barrels of beer were turned into the gutter and many cases of whiskey were smashed.

The contraband had been stored at police headquarters and had been seized by officers in raids since the prohibition ordinance went into effect several weeks ago. A provision of the ordinance requires that intoxicating liquors, seized must be destroyed. The gambling paraphernalia seized by officers in raids is to be burned. It consists of crap tables, other tables used for playing poker, and chairs. A rigid enforcement of the prohibition ordinance is being maintained by the police department.

A FLY

is a Dangerous Thing

Flies carry disease and the only way to deal safely with them is to catch them alive and then bury them. A trap will be exhibited on the streets of Ada all next week and you should not fail to see it. Merchants, farmers, housewives and dairymen, in fact anyone pestered with the FLY, the disease breeder will do well to see this trap on the streets

ALL NEXT WEEK

VITAL STATISTICS FOR MAY 1911

The News is indebted to Dr. R. F. King, county health officer, for the following vital statistics for Pontotoc county for the month of May.

Births, 35; of which 18 were males and 17 females. Of these 33 were white and two colored.

During the same time there were 11 deaths, 6 males and 5 females. One of these was a negro 108 years of age. Tuberculosis and typhoid fever caused two deaths each. Five of the deaths were of children under 10 years of age.

Will Fight Resignation.

Oklahoma City, Ok., June 15.—Reports that the local option association recently formed in Oklahoma will circulate a petition for the initiation of a local option amendment to the constitution have stirred up the officers of the Anti-Saloon league. Superintendent H. L. Sheldon of the Oklahoma Anti-Saloon league says that his organization will be prepared to meet the local optionists at every point in the fight.

"The efforts of the local representatives of the local option association have been directed toward concealing the hands of the brewers in this movement," said Mr. Sheldon today. "They have deceived the anti-saloon people in no way and they will not be able to deceive the people over the state."

Oklahoma Mineral Resources.

Norman, Okla., June 15.—Oklahoma may have no mines or diamond pits, but she is so rich in other natural products that the average citizen seldom realizes their extent.

Chas. N. Gould, director of the Oklahoma Geological Survey at Norman, has worked for years investigating Oklahoma's natural resources and finds that she has 2,000,000,000 cubic feet of gas per day, has 79,000,000,000 tons of coal yet to be mined, enough asphalt to pave all the cities in the United States for the next hundred years; lead and zinc deposits ranking with the best of other states, has 123,000,000,000 tons of gypsum in sight, a ledge of glass sand 50 feet thick and 60 miles long, twenty varieties and shades of granite in practically inexhaustible amount, immense quantities of limestone superior to the famous Bedford, large deposits of iron ore and many other minor minerals.

When the fact comes home to us that these resources are in the infancy of development, we cannot but know that Oklahoma's future is assured.

The News force was treated to a fine bait of apricots this afternoon, compliments of Clarence Newton.

CO. COMMISSIONERS EQUALIZING TAXES

The county commissioners met today and will remain in session the remainder of the week passing on the tax rolls and equalizing the taxes. They have a big job ahead of them, too. Indications are that the increase of valuation in Pontotoc county will be about \$1,000,000 over last year. The Ada rolls show about \$300,000 over last year.

REV. ANDERSON WILL CONDUCT TENT MEETING

Tomorrow evening at 8 o'clock, Rev. Leroy Anderson will begin a tent meeting at the corner of 16th and Ash avenues. The meeting will continue until further notice. The services will be held each evening at 8 o'clock and Sunday afternoon at 4 a service will be held. Excellent music is promised at the meeting, and Mr. Anderson is too well known as a preacher to need any introduction or commendation at the hands of the News. You are cordially invited to attend these services.

Shower Was Local.

George Montgomery states that the shower yesterday afternoon was a good one in the vicinity of Vanoss. From inquiries made, however, it seems to have extended no further east than Ada. It did not reach Roff or Francis.

We Don't Mind Hot Weather.

When we can get the cold and refreshing drinks that are served at Ramsey's Drug Store fountain. Don't wink at us. The lid is tight, but if you want a refreshing drink try a glass of our Cherry Vim and you will be satisfied. If it is to be found in a drug store we have it.

The Delights In Baking With CALUMET BAKING POWDER

To fully appreciate the real pleasure of baking, buy a can of Calumet and as a test bake a batch of biscuits.

See how light and wonderfully raised they come from the oven.

Then break one of them open and note how thoroughly, evenly and fluffily the dough has risen.

And the final test—the one that counts—butter and taste.

This test will prove to you that Calumet is the most dependable Baking Powder for every purpose.

It will prove its economy over the high-price trust brands and its great superiority over the cheap and big can kinds.

For Calumet is highest in quality—and moderate in cost.

Received Highest Award World's Pure Food Exposition.

script.

It is reported that the Duchess of
Marlborough, formerly Miss Vander-
bilt, is preparing to return to the
land of her nativity and again take
up her abode here. Her life with her
titled and worthless husband has
been far from happy and at a fright-
ful cost she has learned the utter
worthlessness of a title. For its sake
she gave up her fortune, but having
secured that her husband, who holds

a title because an ancestor happened
to be a successful general, only
treated her with contempt and never
lost an opportunity to make her feel
that a great social gulf was fixed be-
tween them and that she was so far
below his station that he had done
her a wonderful favor to marry her
and take her millions. Although one
regrets to see the life of any one
blasted and wrecked, we cannot feel
much sympathy for these American
snobs who are so wild about foreign
titles. When America is no longer
good enough for them it is usually
a case of a haughty spirit going be-
fore a fall. The true American spirit
is admiration for present achieve-
ment. In Europe it is for the achieve-
ment of some ancestor in the middle
ages.

DID BOYNTON BLOW UP THE BATTLESHIP MAINE?

New York, June 15.—That George
D. Boynton, a "soldier of fortune,"
condemned to death in Havana, blew
up the Maine in Havana Harbor, for
which act he was given his freedom,
is secret information which has been
brought to the United States secret
service and which now is being in-
vestigated by the government.

"The Epaniards," said the inform-
ant to Chief Wilkie of the Secret Ser-
vice, "were entirely unprepared for
the visit of the Maine, which was
sent to Havana suddenly and without
warning. Consequently, there was no
mine attached to the buoy at which
she was moored, though it was stated
that one would have been placed
there if it had been so much as sus-
pected that she was coming. Once in
the harbor, she had the city and its
defenses at her mercy, for all of the
modern guns in the surrounding for-
tifications faced the sea and none could
be brought to bear on her.

"Captain General Blanco and his
staff did not relish having a hostile
warship in such an advantageous po-
sition in the event of war with the
United States, which they then re-
garded as at least a possibility, and
it was decided to blow her up, under
such conditions as might make it ap-
pear she had been destroyed by an
accidental explosion of her own mag-
azines. A large boiler from the navy
yard was taken to the arsenal and
filled with powder. It was provided

with a mechanism by which it could
be exploded by electricity and was
then hermetically sealed.

"The boiler was lashed in a sling
under a lighter, which was towed
across the bow of the Maine at night.
When the lighter was directly in
front of the battleship the lines
which held the boiler were cut and it
dropped into the mud. The wire by
which the mine was to be exploded
was led to the end of the Machina
wharf, and it was then a question of
waiting until a shift in the tide
brought the war ship over the boiler
and of selecting someone to throw the
switch that would set the mine off
at the proper time.

"The Spaniards then fixed on Boyn-
ton as the person to set off the mine.
He had been captured shortly before
while conducting a filibustering ex-
pedition for the Cubans, whom he
had aided during the ten years' war,
and was then imprisoned in Cabanas
fortress. According to the story he
was tried and sentenced to death but
was offered life and liberty if he
would press the button that was to
destroy the Maine and swear never
to reveal the secret.

"He accepted these terms and on
the night of February 15, 1898, when
the Maine swung around until her
bow was directly over the mine, with
her keel only three or four feet above
it, he was taken to the Machina
wharf he threw the switch that caused
the explosion. Then he was set
free and left Cuba."

Such was the story the spy told
the secret service. Chief Wilkie and
his sleuths worked on it a long time.
What Wilkie found in his investiga-
tion is not known.

Lemons Have Riz.

It's a powerful hard time—
Lemons three for a dime,
And the cookbooks they're no more
adoring;
For they're now fully as shy,
As biscuits in days gone by.

Physiologists Disagree.

There are few persons who realize
how greatly physiologists are at var-
iance in their estimate of the actual
work performed by the Liver. While
all agree that it is the largest and
one of the very important glands of
the body, when it comes to the ques-
tion of the actual work performed,
there seems to be a wide diversity of
opinion.

Practically all are agreed, however,
that the principal work of the Liver
is the separation of such materials
contained in the body as might exert
a poisonous influence upon the body
unless thrown off.

Rexall Liver Salts has been pro-
duced with the idea of assisting the
torpid Liver to perform its proper
functions in a proper manner, and
the success which has attended the
treatment leads us to recommend this
preparation to you.

If your case is not properly ben-
efitted, we will refund all money you
may have paid us for the remedy.

Will Leave Ada About July 1.

The News regrets to learn that
Rev. F. S. Goddard and family will
leave Ada about July 1, or possibly
sooner. They will go to Muskogee,
where he will assume the duties of
the presidency of the Methodist col-
lege being built. For four years Mr.
Goddard has been the presiding eld-
er of the Ada district and during this
period he has come in contact with
most of the population of the several
counties composing the district. The
News sincerely regrets his depart-
ure, but wishes him abundant suc-
cess in his new field of endeavor.

HOW MUCH Is a Regularcus- tomer Worth to Your Store?

Suppose you could BUY 100 additional
REGULAR CUSTOMERS during
the next week or two—customers who,
for years and years to come, would
make a MAJORITY of their pur-
chases of goods in your line at YOUR
STORE? What would each of these
100 customers be worth to you?

It is, we think, quite likely that if such
an investment were possible, you'd
eagerly pay TWICE AS MUCH as
it would cost you to secure these 100
REGULAR CUSTOMERS
through an advertising campaign big
enough and aggressive enough to really
make people ACQUAINTED with
your store.

CLAIRVOYANTS BORN, NOT MADE

ROSCOE ARNOLD

Penetrates the Soul, Delves Into the
Past, and Inquires Into the
Future.

Born with a veil, educated in ac-
counting with three and one-half
years law at Topeka, Kansas, and
nine years experience in philosophy
and occult mysteries. I do not have
to ask you a single word in order
to tell what ails you most or to de-
scribe your conditions. If threatened
with sickness, I will point out day
the crisis may be expected to appear.
I could specialize in predicting the
future, rise or decline of reputable
stocks and bonds, if called to my
attention.

If you are honest and really want
to know the out come of some love
affair that you are in earnest about,
and, if the other party is true, I will
describe color of their hair and eyes
as well as disposition, and tell you
whether there will ever be a match
or put you on the right track. I po-
sitively guarantee to do this, else the
interview does not cost you any-
thing. Everything held sacredly con-
fidential.

In replying orally to specific ques-
tions I undertake four for only \$1.00
or thirty-minute consultations can be
arranged by appointment for \$2.50.
NO TRIFLING.

In general I can even read your
letters while they are still in trans-
it, yet such service is not included
in this advertisement inasmuch as
the fee for same is in excess of any-
thing designated herein, besides the
right is reserved to reject any work
or inquiry, which in my opinion,
would not be relevant to or for the
betterment of your own business.
However, if you are worried over
life or property at stake, and you
are willing to pay for expert infor-
mation, consult me.

Residence: Thirteenth and Cherry.
Hours: 10 A. M. to 9 P. M.
Phone 454.

Joe Thomas of Roff passed through
this morning en route to Bromide.

More light than anywhere store in

GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back
the Natural Color—Dandruff
Quickly Removed.

How often one hears the expression,
"She is gray and beginning to look old."
It is true that gray hair usually denotes
age and is always associated with age.
You never hear one referred to as having
gray hair and looking young.

The hair is generally the index of age.
If your hair is gray, you can't blame
your friends for referring to you as look-
ing old. You can't retain a youthful ap-
pearance if you allow your hair to grow
gray. Many persons of middle age jeop-
ardize their future simply by allowing
the gray hair to become manifest. If
your hair has become faded or gray, try
Wyeth's Sage and Sulphur Hair Remedy,
a preparation which a chemist by the
name of Wyeth devised a few years ago.
It is simple, inexpensive and practical,
and will banish the gray hairs in a few
days. It is also guaranteed to remove
dandruff and promote the growth of the
hair.

It is a pleasant dressing for the hair,
and after using it a few days itching and
dryness of the scalp entirely disappear.
This preparation is offered to the
public at fifty cents a bottle, and is
sold by all druggists.

PRIMITIVE METHODS

are better than none, even if they
lack the effectiveness of the up-to-
date dry cleaning, as conducted by
us, which not only removes the spots
stains and discolorations from cloth-
ing, but by our special process we
restore the whole suit to its origi-
nal fresh appearance so it looks like
a new one. Send your worn clothes
to us and see how nice they will look
when cleaned and pressed.

YES; Some Good Printing

Costs Too Much; Too!

IT'S the same as with
other good things. The
temptation to charge "stiff
prices" for high-class things,
or high-class service, is al-
ways natural. For in all
artisanship nowadays the
standard is higher—the
doom of the commonplace is
pronounced. So that, as to
printing, high-grade work
is not apt to cost you more
than it's WORTH: still,
you can pay more for it at
some places than at others—
and this shop is one of the
"others."

It will pay you to get
our prices before placing
your order for printing.
